SUBJECT: Determination by the President under Section  
P.L. 87-510 that the U.S. assist certain  
designated refugees.

Discussion

Pursuant to the President's request dated July 21, 1961 the Congress has enacted special legislation (PL 87-510) providing broad authorization for the United States to assist refugees and migrants. Section \_\_\_\_\_ of PL 87-510 contains specific authorization for continued United States contribution to the programs of the Intergovernmental Committee for European Migration and the United Nations High Commissioner for Refugees.

It also provides inter alia for the appropriation of necessary funds when the President determines that United States assistance to designated categories of refugees will contribute to the defense, security or foreign policy interests of the United States. This provision enables the United States to continue its direct assistance under the United States Escape Program to refugees from communist countries (previously authorized by the Mutual Security Act) and to provide needed assistance in other developing refugee problems notably in Africa and Asia.
